The Grant Quality

With some men style is inborn, and they can tell by inate perception the right thing in clothes, but the great ma jority have to trust to others for the correctness of their dress. Both classes however, are beginning to recognize the Grant Quality as the correct article, and if it comes from Crant's its right as to style, quality and price.

Has long since learned that sensible people are not looking for the "So called bargains." We have learned that they are looking for the combination of style and quality to the exclusion of "mere cheapness." If it's shown here it's the best of it's class-if it's fashionable, it's shown here first. We have unequaled facilities for gathering the best the worlds markets afford at the least possible price. We are always one price to all alike, and that one price as low as like quality can be bought anywhere in America.
